

MATCONTAINER 'S' SERIES IBC

General:

The "S" Series IBC is part of the unique Matcontainer range of Intermediate Bulk Containers (IBCs), used for the storage and distribution of powders, granules and other materials.

Discharging:

The IBC incorporates the Matcon Cone Valve at its outlet, which enables it to be discharged in a controlled and dust-tight manner using a Matcon Discharge Station.

Filling:

Matcon supply a variety of manual or automatically operated Fill Heads, which attach to the IBC inlet and provide a dust tight connection during filling.

Blending:

As an option the IBC may be tumbled in a Matcon IBC Blender to provide a quick and efficient means of homogenizing the IBC contents. The IBC is tumbled on an asymmetric axis to achieve optimum blend efficiency.

Cleaning:

The IBC is designed to be easily and thoroughly cleaned. Matcon supply a variety of manual or automatically operated IBC Wash Stations and Wash Booths.

Options:

As standard the IBC is manufactured in Stainless Steel. The following options are available.

- 500 to 2500ltr/17.5 to 87.5 cu.ft. capacities.
- Stacking feature 2/3 high.
- Containment filling and discharging.
- IBC movement by either pallet/fork truck, chain/roller conveyor, overhead handling or AGV's.
- Certifiable to DOT 56/UN Chapter 16 for transport of hazardous goods.
